KETTLER ALU-RAD

MADE IN GERMANY

WER WIR SIND.

QUALITÄT UND INNOVATION – Made in Germany

Die KETTLER Alu-Rad GmbH ging aus der Heinz KETTLER GmbH & Co. KG hervor, die 2015 von Europas größtem Zweirad-Fachhandelsverband, der Zweirad-Einkaufsgenossenschaft eG (ZEG), aus der Insolvenz in Eigenverwaltung übernommen wurde. Die Mitarbeiterzahl konnte nach Übernahme der ZEG von 80 auf 360 Mitarbeiter erhöht werden. Seither agiert das Unternehmen aus Köln mit zwei Produktionsstätten im Saarland und überzeugt mit innovativen Bikes „Made in Germany" sehr erfolgreich in der Fahrradbranche. Neben hochwertigen City und Trekking-E-Bikes wird vor allem in Cargobikes investiert. Diverse Auszeichnungen diverser Verlage und Testinstitute bestätigen die Arbeit von KETTLER Alu-Rad. Im Jahr 2024 wurden rund 650 Händler im In- und Ausland mit KETTLER Bikes beliefert.

Mit einer Investition von rund 100 Mio EURO begann 2022 die Produktion der ersten E- Bikes im neuen hochmodernen Werk in St. Ingbert um der hohen Nachfrage an KETTLER Bikes gerecht zu werden und einen Beitrag zu einer zukunftsorientierten Mobilität zu liefern. KETTLER hat es sich zur Mission gemacht, mit der Etablierung eines gesamtheitlichen Produktsortiments den Bedürfnissen der Kunden vollumfänglich zu entsprechen und so zu einem der größten deutschen Fahrradhersteller zu werden. Der Qualitätsstandard des deutschen Produzenten steht dabei an oberster Stelle.

UNSERE PHILOSOPHIE.

Die deutsche Mobilitätsbranche ist in der heutigen Zeit wandelnden Anforderungen unterlegen. Diese gehen dabei teilweise von institutionellen Organen, wie der Politik aus, stellen aber auch eine gesamtgesellschaftliche Bestrebung dar. So steht grundsätzlich eine soziale Verantwortung jedes Einzelnen im Miteinander, aber vor allem auch hinsichtlich der bestehenden Ressourcen im Jetzt und in der Zukunft im Zentrum.

Nachhaltiges Handeln stellt mittlerweile eine Notwendigkeit dar.

Fahrräder in allen Variationen ersetzen immer mehr die umweltschädlicheren Mobilitätsvarianten. So hat es sich KETTLER Alu-Rad zum Vorsatz gemacht, einen bedeutenden Schritt zur Mobilität der Zukunft beizutragen.

Das Produktsortiment von KETTLER bietet Optionen für diverse Konsumentenanforderungen. Vom Lastenfahrrad, E-Bike, E-Cargo bis hin zum Trekkingrad - KETTLER liefert alltagsnahe Lösungen für eine nachhaltige und innovative Fortbewegung. FÜR ALLE.

Dabei steht die Qualität der in Deutschland produzierten Räder jederzeit im Fokus.

KETTLER ALU-RAD

MADE IN GERMANY

WHO WE ARE.

QUALITY AND INNOVATION – Made in Germany

The KETTLER Alu-Rad GmbH emerged from Heinz KETTLER GmbH & Co. KG, which was taken over from insolvency in 2015 by Europe's largest bicycle specialist trade association, the Zweirad-Einkaufsgenossenschaft eG (ZEG). The number of employees was increased from 80 to 360 after the takeover of ZEG. Since then, the Cologne-based company has operated with two production facilities in Saarland and has been very successful in the bicycle industry with innovative bikes „Made in Germany". In addition to high-quality city and trekking e-bikes, investments are primarily made in cargo bikes. Various awards from various publishers and test institutes confirm the work of KETTLER Alu-Rad. In 2024, around 650 dealers in Germany and abroad were supplied with KETTLER bikes. With an investment of around 100 million euros, the production of the first e-bikes began in 2022 in the new, state-of-the-art factory in St. Ingbert in order to meet the high demand for KETTLER bikes and to make a contribution to future-oriented mobility. KETTLER has made it its mission to fully meet the needs of customers by establishing a holistic product range and thus becoming one of the largest German bicycle manufacturers. The quality standard of the German producer is the top priority.

OUR PHILOSOPHY.

The German mobility industry is subject to changing requirements today. These come partly from institutional bodies such as politics, but also represent a societal effort. In principle, the focus is on the social responsibility of each individual in their interactions, but above all with regard to existing resources now and in the future.

Sustainable action is now a necessity.

Bicycles in all variations are increasingly replacing the more environmentally harmful mobility options. KETTLER Alu-Rad has therefore made it its goal to take a significant step towards the mobility of the future.

KETTLER's product range offers options for various consumer requirements. From cargo bikes, e-bikes, e-cargo bikes to trekking bikes - KETTLER provides everyday solutions for sustainable and innovative mobility. FOR ALL.

The quality of the bikes produced in Germany is always the focus.

MODELLJAHR 2027 – KLARE STRUKTUR, STARKE PERFORMANCE

Our News

KETTLER MADE IN GERMANY

Mit dem Modelljahr 2027 setzen wir auf eine klare Weiterentwicklung unseres Portfolios mit Fokus auf Marktanforderungen, Differenzierung und **attraktive Preis-Leistungs-Positionierung.** Unser Ziel ist, unseren Fachhandelspartnern ein durchgängiges und leicht verständliches Sortiment für unterschiedliche Kundengruppen an die Hand zu geben.

Im Mittelpunkt stehen moderne Rahmenplattformen, eine verbesserte Integration zentraler Komponenten sowie ein konsequenter Ausbau unserer Antriebskompetenz mit Systemen von Bosch. Je nach Modell kommen sowohl leistungsstarke Varianten wie die Bosch Performance Line als auch komfortorientierte Lösungen wie die Bosch Active Line Plus zum Einsatz.

Ein **besonderer Fokus liegt auf Komfort, Wartungsarmut und Alltagstauglichkeit.** Hochwertige Ausstattungsoptionen wie automatische Nabenschaltungen (z. B. Enviolo Automatik) sowie langlebige Antriebslösungen mit Gates Riemen ergänzen das Portfolio im oberen Segment. Gleichzeitig bleiben klassische Kettenantriebe mit bewährten Schaltsystemen von Shimano fester Bestandteil des Sortiments. Auch bei Reichweite und Akkukonzepten ist unser Angebot weiter differenziert: Von integrierten Hochleistungsakkus für maximale Reichweite bis hin zu kosteneffizienten Lösungen mit externen Akkus für den Einstieg. Dadurch können unterschiedliche Nutzungsanforderungen gezielt abgedeckt werden.

Für das **Modelljahr 2027** wurde zudem besonderer Wert auf eine **klare Preisstruktur** gelegt. Neue Einstiegsmodelle erleichtern den Zugang zur Marke, während gleichzeitig im mittleren und oberen Segment gezielte Upgrades für zusätzliche Kaufanreize sorgen. Neben unseren Neuheiten führen wir weiterhin erfolgreiche Modelle aus dem letztjährigen Programm als feste Durchläufer.

Das Programm 2027 steht für:

- Klare Segmentierung von Premium bis Einstieg
- Starke Bosch-Antriebskompetenz über alle Preislagen hinweg
- Moderne Rahmenplattformen mit Fokus auf Integration und Komfort
- Attraktive Preis-Leistungs-Positionierung für neue Zielgruppen

Ein durchgängiges, verkaufsstarkes Line-up mit klarer Differenzierung, starker Bosch-Kompetenz und passenden Lösungen für jede Zielgruppe.

Kurzvorstellung MY27 Modelle

- Das **QUADRIGA P KIVO** positioniert sich als Premium-Highlight mit beleuchtetem Headbadge, seitlich entnehmbarem 800 Wh Akku, Bosch Performance Line, Enviolo Automatik und Gates Riemen für maximalen Komfort.
- Als sportliche Alternative bietet das **TOWN & Country P10** ebenfalls Performance Line und 800 Wh, kombiniert mit klassischer 10-Gang Shimano Kettenschaltung.
- Im mittleren Preissegment ergänzt das **TRAVELLER P KIVO** das Portfolio: bewährte Ausstattung auf Traveller-Plattform, reduziertes Design und attraktiver Preis bei 540 Wh.
- Das **TRAVELLER A9** (Cues 9-Gang) und das **TRAVELLER A8** (Nexus 8-Gang), beide mit Bosch Active Line Plus und 540 Wh, bilden den günstigsten Einstieg in das gesamte Sortiment bei gleichzeitig hoher Alltagstauglichkeit und bewährter Technik.
- Auf der COMFORT-Plattform entwickelt, überzeugt das **COMFORT A8** mit tiefem Durchstieg, 540 Wh und hoher Alltagstauglichkeit.

MODEL YEAR 2027 – CLEAR STRUCTURE, STRONG PERFORMANCE

Our News

MADE IN GERMANY

For Model Year 2027, we are further developing our portfolio with a **clear focus on market requirements,** product differentiation, and an attractive value-for-money proposition. Our goal is to provide our retail partners with a consistent and easy-to-understand product range tailored to different customer groups.

At the core of the new lineup are modern frame platforms, improved integration of key components, and a continued expansion of our e-bike expertise through Bosch drive systems. Depending on the model, customers can choose between powerful drive units such as the Bosch Performance Line and comfort-oriented solutions like the Bosch Active Line Plus.

A **special focus has been placed on comfort, low maintenance, and everyday usability.** Premium equipment options such as automatic hub gearing (e.g., Enviolo Automatic) and durable drivetrain solutions with Gates belt drives complement the upper end of the range. At the same time, traditional chain-driven systems with proven Shimano shifting technology remain an integral part of the portfolio.

Our battery and range concepts have also been further differentiated. The lineup includes everything from integrated high-capacity batteries for maximum range to cost-efficient external battery solutions for entry-level models. This allows us to meet a wide variety of riding and usage requirements.

For Model Year 2027, particular attention has also been paid to establishing a clear pricing structure. New entry-level models make it easier for customers to access the brand, while targeted upgrades in the mid-range and premium segments create additional purchase incentives. Alongside our new products, we will continue to offer successful models from last year's range as permanent carry-over models.

The 2027 Program stands for

- Clear segmentation from premium to entry level
- Strong Bosch drive expertise across all price points
- Modern frame platforms with a focus on integration and comfort
- Attractive value-for-money positioning for new target groups

A comprehensive, sales-driven lineup with clear differentiation, strong Bosch expertise, and the right solution for every customer segment.

MY27 Model Overview

- The **QUADRIGA P KIVO** is positioned as the premium highlight of the range, featuring an illuminated head badge, a side-removable 800 Wh battery, Bosch Performance Line drive system, Enviolo Automatic , gearing, and a Gates belt drive for maximum comfort.
- As a sporty alternative, the **TOWN & COUNTRY P10** also features the Bosch Performance Line and an 800 Wh battery, combined with a classic 10-speed Shimano derailleur drivetrain.
- In the mid-price segment, the **TRAVELLER P KIVO** expands the portfolio with proven equipment on the Traveller platform, a streamlined design, and an attractive price point paired with a 540 Wh battery.
- The TRAVELLER A9 (Shimano Cues 9-speed) and TRAVELLER A8 (Shimano Nexus 8-speed), both equipped with the Bosch Active Line Plus and a 540 Wh battery, represent the most affordable entry-point into the range while offering excellent everyday practicality and proven technology.
- Developed on the COMFORT platform, the **COMFORT A8** features a low step-through frame design, a 540 Wh battery, and outstanding suitability for everyday use.

ACCESSOIRES

MADE IN GERMANY

FLEXBOX SITZBANK
FLEXBOX BENCH

ART.NO.
08950-590

149,90 €*

Die FLEXBOX SITZBANK wird in die FLEXBOX 600 / 800 montiert. Damit ist der komfortable Transport von zwei Kindern möglich. Der Sicherheitsaspekt steht bei dem Transport von Kindern natürlich immer an erster Stelle, so ist unsere SITZBANK mit 3-Punkt-Gurt System von FIDLOCK® ausgestattet.

- 2 x Sitzschalen aus EVA-foam
- 2er Sitzbank mit 3-Punkt Gurt System von FIDLOCK®
- Mit Rückwand

The FLEXBOX BENCH is mounted in the FLEXBOX 600 / 800. This makes it possible to transport two children comfortably. The safety aspect is of course always the top priority when transporting children, so our BENCH is equipped with a 3-point belt system from FIDLOCK®.

- 2 x seat shells made of EVA foam
- 2-seater bench with 3-point belt system from FIDLOCK®
- With back wall

AUCH FÜR FLEXBOX 650 / 850 AUS DER PICARGO SERIE/
ALSO FOR FLEXBOX 650 / 850 FROM THE PICARGO SERIES

BILD FOLGT / PICTURE FOLLOWS

RAIN COVER 600 / 800

RAIN COVER 600:
199,90 €*

RAIN COVER 800:
219,90 €*

Das RAIN COVER schützt Kinder und Lasten vor Regen und Wind. Nach der Erstmontage der Halterungen, kann das RAIN COVER werkzeuglos und schnell montiert bzw. demontiert werden und passt auf die WOODBOX und die FLEXBOX.

- Schutz vor Wind und Regen
- Werkzeuglose und schnelle Montage und Demontage
- Für Flex- und Woodbox

The RAIN COVER protects children and loads from rain and wind. After the initial assembly of the brackets, the RAIN COVER can be assembled or disassembled quickly and without tools and fits on the WOODBOX and the FLEXBOX.

- Protection from wind and rain
- Tool-free and quick assembly and disassembly
- For Flex and Woodbox

PRODUKTNEUHEIT **MONKEYLOAD-S** BEFESTIGUNGSSYSTEM FÜR SEITENTASCHEN AM FAHRRADGEPÄCKTRÄGER

Seit Jahren gibt es viele bewährte Gepäckträger-Taschen, die jedoch eines gemeinsam haben: Sie sind in der Handhabung nicht sonderlich intuitiv. Mit **MonkeyLoad-S** wird das nun anders. Im Gegensatz zu den konventionellen Systemen rastet die Arretierung an der unteren und nicht an der oberen Strebe des Gepäckträgers ein. Durch ihr Eigengewicht klippt die MonkeyLoad-Packtasche über den speziellen Verschluss-mechanismus selbsttätig ein. Das im täglichen Gebrauch oft schwierige Anbringen der unteren Halterung entfällt. Beim Abnehmen wird die Verriegelung über ein Band gelöst. Dazu muss die Tasche nur nach oben gezogen werden – einfach, schnell und intuitiv.

Durch das nachrüstbare Schloss kann die Tasche schnell und einfach am Gepäckträger gesichert werden. Dazu lässt sie sich über die werkzeuglose Winkelverstellung in Sekundenschnelle so einstellen, dass maximale Fußfreiheit beim Fahren garantiert ist.

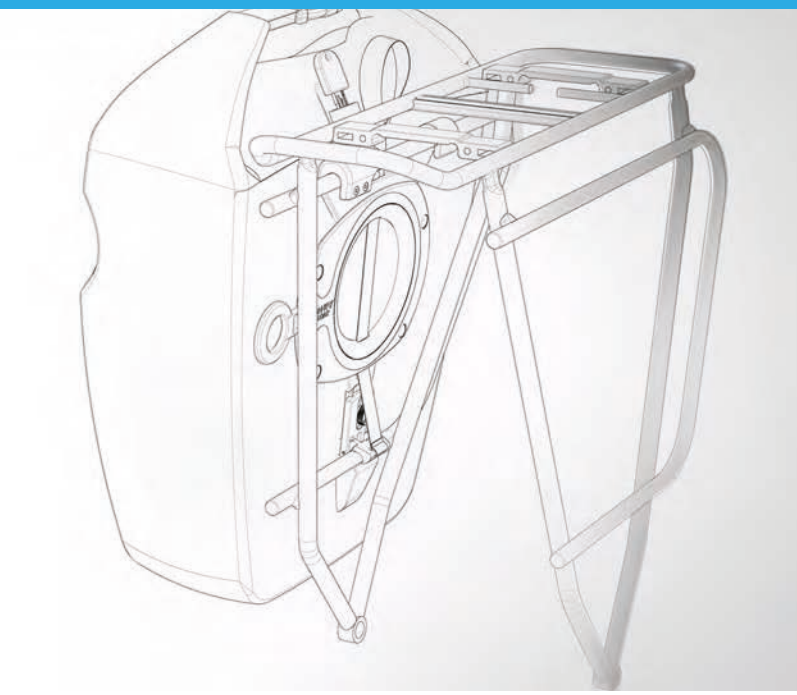

Das neue **MonkeyLoad-S**-System kann auf vielen im Markt befindlichen Gepäckträgern montiert werden. Besonderes Augenmerk wurde auf die optimale Abstimmung von Produkten mit **MonkeyLoad-S**-Ausstattung (z. B. der Marke Northwind) und den Neufahrzeugen der KETTLER Alu-Rad GmbH gelegt. So ist die Voreinstellung der Taschen bereits so konfiguriert, dass eine Einstellung der Tasche auf das Fahrrad nicht mehr notwendig ist.

KEY FACTS

- Einfache Montage und Demontage, auch im beladenem Zustand.
- Voreingestellt auf die Fahrzeuge der KETTLER Alu-Rad GmbH, Einstellung entfällt.
- Optionales Schloss erhältlich (2. Halbjahr 2021), dadurch diebstahlgeschützt.
- Werkzeuglose Winkeleinstellung, dadurch großer Abstand vom Fuß beim Pedalieren.

PRODUCT INNOVATION **MONKEYLOAD-S** ATTACHMENT SYSTEM FOR RACK PANNIERS

Numerous tried and tested rack panniers have been available for years, but they all have one thing in common: their less than intuitive handling. **MonkeyLoad-S** now changes this. In contrast to conventional systems, the lock engages on the lower strut and not on the upper strut of the rack. The MonkeyLoad pannier automatically clips in under its own weight thanks to the special locking mechanism. There is no need to attach the lower bracket, which is often difficult in daily use. When removing, the lock is released via a strap. All that is needed is to pull the bag upwards – easily, quickly and intuitively.

The bag can be quickly and easily secured to the rack using the retrofittable lock. In addition, it can be adjusted in a matter of seconds using the toolless angle adjustment, guaranteeing maximum foot freedom when cycling.
The new **MonkeyLoad-S** system can be fitted to a large range of racks already available on the market. Particular attention was paid to the optimal coordination of third-party products with **MonkeyLoad-S** equipment (e.g. the Northwind brand) and the new bikes of the KETTLER Alu-Rad GmbH. The bag pre-adjustment feature is configured in such a way that it is no longer necessary to adjust the bag to the bike.

KEY FACTS

- Easy fitting and removal, even when fully loaded.
- Preset for KETTLER Alu-Rad GmbH bikes, adjustment not required.
- Optional lock available (2nd half of 2021), providing protection against theft.
- Tool-free angle adjustment, allowing for greater distance from the foot when pedalling.
